

Know What You Need to Know, When You Need to Know It

Achievement Dashboard gives you an easy and impactful way to visualize key performance indicators. Discover insights into datasets like attendance, assessments, behavior, culture, climate, college and career, course completion, demographics, grades, and much more.

BENEFITS:

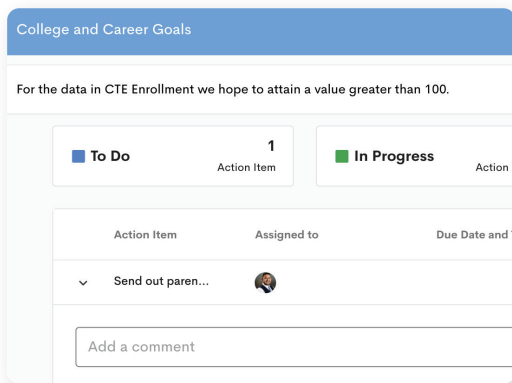

- ✔ Intuitive, user-friendly design with no coding required
- ✔ Quickly toggle between visualization types
- ✔ Simple drag-and-drop resizable charts
- ✔ Visualize any data set via Google Sheets

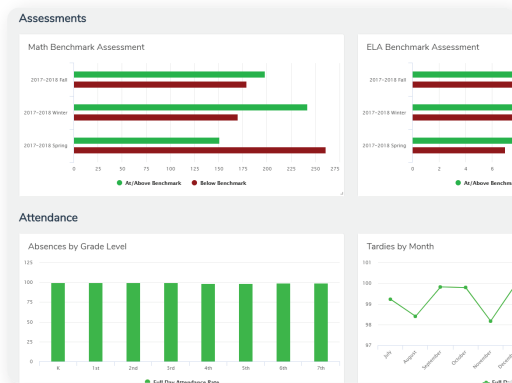

Built to give you the visibility you need to measure progress and ensure district goals are being achieved.

How Does Achievement Dashboard Help You?

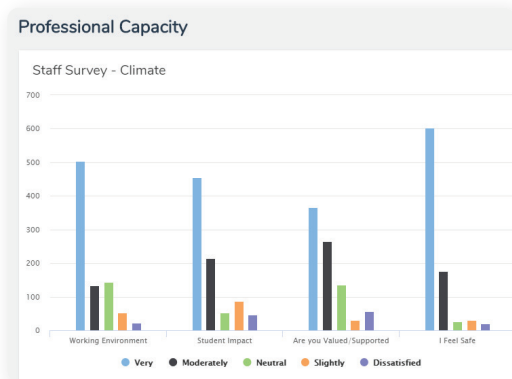

Action Plans

Combine data from reports, spreadsheets, and other systems into an interactive dashboard to create and align your district’s strategic plans, collaborate on action items, and set goals for your teams.

Key Performance Indicators (KPIs)

- Monitor critical KPIs for summary data to help your team make quick, informed decisions.
- Track progress and results by student group or grade level to drive equitable outcomes for all students.
- Capture and share KPIs with key stakeholders, including embedding visualizations on websites.

Drill-down Dashboards & Charts

- Get real-time data access with interactive, drill-down dashboards that highlight trends and progress over time.
- Engage stakeholders with customizable and easy-to-use dashboards and charts that can be duplicated and shared with a district, school, or team.
