

# Simplify District Management with a Proven and Reliable System

eSchoolData (eSD) is a powerful student information system that is used by over 400 schools and districts. The ease-of-use and robust design of the system enables your team to complete normal tasks with confidence, while providing insights from your data to tackle tough problems.

## BENEFITS:

- ✓ **Superior district management** via one platform to manage attendance, grades, discipline, scheduling, communication, and more
- ✓ **Open standards and commitment to interoperability** allow for seamless integrations across your digital products

- ✓ **Data privacy peace of mind** through sophisticated security protocols ensuring compliance across federal, state, and local regulations
- ✓ **Streamline classroom processes** among students, parents, and teachers with Teacher Connect

Lane Tyler
